

## Building Chatbot And Integrate To Application

Date	19 November 2022
Team ID	PNT2022TMID25604
Project Name	SMART FASHION RECOMMENDATION APPLICATION
Maximum Marks	4 Marks

The screenshot shows the IBM Watson Assistant interface for a project named 'Fashionhub'. The interface is divided into two main sections: 'Conversation steps' on the left and 'Customer starts with' on the right.

**Conversation steps:**

- Step 1:** 'What issue are you facing?' with options 'Order related' and 'Refund related' (+2). A 'Continue to next step' button is below.
- Step 2:** 'Account related' with options 'Phone numb...' and 'Account addr...' (+2). A 'Continue to next step' button is below.
- Step 3:** 'Refund related' with options 'Product pick...' and 'Refund amou...' (+1). A 'Continue to next step' button is below.
- Step 4:** 'Order related'.

**Customer starts with:**

Enter phrases that a customer types or says to start the conversation about a specific topic. These phrases determine the task, problem, or question your customer has.

The more phrases you enter, the better your assistant can recognize what the customer wants.

Enter phrases your customer might use to start this action. Total: 2

Enter a phrase

Issues

Buttons: 'New step' and 'Preview'.

The screenshot shows the FashionHub website. The header includes the 'FashionHub' logo, a search bar, and navigation links: Home, Women, Men, Kids, Accessories. The main content area features a large image of a woman in a pink dress with the text 'FashionHub Best Fasion Collection Of All Time'.

A chatbot interface is overlaid on the right side of the page. It has a 'Hub' header, a home icon, and a profile picture of a woman. Below the profile picture is a text input field with the placeholder 'Type something...' and a 'Send' button. At the bottom, it says 'Built with IBM Watson'.
